

## **KEYNOTE, PANELS, AND INVITED LECTURES**

1. **2025 Presidential Address: State of the Society**
  - Tanaz Ferzandi, MD, MBA, MA | University of Southern California
2. **Journal Update**
  - Rebecca G. Rogers, MD | Albany Medical Center
3. **Keynote: Let's Talk About Health Misinformation!**
  - Timothy Caulfield, BSc, LL.B., LL.M., CM, FRSC, FCAHS | Professor of Health Law and Science Policy | Bestselling Author  
University of Alberta
4. **Raymond A. Lee Award Lecture: Beyond a Bystander: The Role of the Uterus in Repairing Pelvic Organ Prolapse and Broader Women's Health**
  - Erin A. Brennand, MD, MSc, FRCSC | University of Calgary
5. **ABLE Lecture: Combating Gender Based Violence - One Person's Journey**
  - Ajay Rane, MD PHD FRANZCOG CU | JAMES COOK UNIVERSITY
6. **SUFU Lecture: The MAPP Research Network: What Have We Learned About Interstitial Cystitis?**
  - Quentin Clemens, MD, FACS, MSCI | University of Michigan
7. **Show Me the Money: Best Strategies to Create the Most Lucrative Career**
  - the Well-oiled Machine - More Patients, More Procedures, More Profit | Erik D. Hokenstad, MD
  - the Negotiator - Win at the Table, Win in Your Bottom Line | Cheryl B. Iglesia MD, FACOG, FACS
  - the Empire Builder - Multiple Incomes from Clinics to Condos | Daniel H. Biller, MD, MMHC
  - the Doctorpreneur - Turning Clinical Expertise into a Thriving Business | Magnus Murphy, FRCSC
  - the Time Master - Carving Space for Passion and Purpose | Kimberly Kenton, MD, MS, FACOG, FACS
8. **Innovation Panel: Working with Industry to Improve Outcomes**
  - Tanaz Ferzandi, MD, MBA, MA | University of Southern California
  - Roger P. Goldberg, MD, MPH | University of Chicago Endeavor Health
  - Panel Moderator: Peter L. Rosenblatt, MD | Mount Auburn Hospital; Harvard Medical School
9. **Becoming Cliterate on Female Pleasure: Female Sexual Function Knowledge Gaps in Urogynecology**
  - Melanie Altas, MD, FRCSC | University of British Columbia
  - Mamawah Bourque, PT, DPT | Awareness Pelvic Health

- Lori A. Brotto, PhD | University of British Columbia
- Christine M. Vaccaro, DO | Rachel Rubin MD PLLC
- Danielle D. Antosh, MD | Houston Methodist Hospital

## 10. Survey Says: UroGyn Edition (Family Feud)

### **GENERAL SESSIONS**

#### **General Session 1: Form and Function**

1. Exploring Intimacy & Empowerment: Impact of Vibrator Use in Urogynecology
2. Vaginal Injection of Platelet Rich Plasma Improves Sexual Function
3. Efficacy of Physiotherapy for Urinary Incontinence in Women with an Avulsion
4. Recurrence Following Anterior vs Posterior Approach to Sacrospinous Hysteropexy
5. Tensioning Polypropylene Mesh: Impact on Vaginal Morphology and Function
6. Surgeon Pain, Activity, and Core Stability: The S-PACS Study
7. VIDEO: Surgical Approach to Complex Excision of 9 Cm Peri-clitoral Spindle Cell Tumor
8. Laser Treatment for the Genitourinary Syndrome of Menopause: An RCT

#### **General Session 2: Transforming Practice**

1. Patient Reported Recovery After Surgery
2. Best Paper by a Fellow: RCT: Post-operative Activity Restriction After Midurethral Sling Procedures
3. Patient Perception of Postoperative Recovery Following Urogynecologic Surgery
4. Evaluating a Novel Postoperative Recovery Protocol: A Randomized Control Trial
5. Impact of Nitrous Oxide on Patient Pain/anxiety with Office Bladder Botox
6. APEX: Absorbable versus Permanent Suture Evaluation in Comparing Vaginal Apex
7. BEST VIDEO AWARD: vaginally-assisted Laparoscopic Sacrohysteropexy: A Novel Approach\*\*
  - \*\*The 2025 Best Video Award recipient claiming a “novel approach” has undergone corrective action, and all references to “novel approach” have been removed following the presentation recording.\*\*
8. Insufflation Pressure and Postoperative Pain After Single Port Sacrocolpopexy
9. Human-centered Development of a Nursing-led Algorithm for UTI Decision Support

#### **General Session 3: Unexpected Insights**

1. Vesicovaginal Fistula and Bladder Eversion Secondary to Neglected Pessary
2. What Makes an Expert Surgeon? Novel Metrics for Evaluating Skills in Simulation
3. Gaps and Inconsistencies in Expectations for URPS Training over 10 Years

4. Use of a Machine Learning Program for Urogynecology Fellowship Applicant Review
5. Knowledge, Attitudes, and Beliefs Influence Care-seeking in Women with Prolapse
6. Healthcare Decision-making Preferences Regarding Hysterectomy in Women
7. Best Clinical Paper: A Randomized Trial Comparing a Texting Platform to Usual Care for Recurrent UTI
8. Improving Communication in the Robotic OR: A Novel Human Factors Rating System
9. A Longitudinal Comparison of Mesh Versus Fascia Lata for Robotic Sacral Colpopexy

#### **General Session 4: Session the Unseen**

1. VIDEO: Excision of an Acute Thrombosed Urethral Prolapse
2. Candidalysin Drives Urothelial Cytotoxicity in Bladder Pain Syndrome
3. Real-time Bladder MRI: A Novel Method for Development of 3D Bladder Models
4. Upright Open MRI Pelvic Anatomy in Yoga Asanas Studied for Urinary Incontinence
5. Detrusor Overactivity Non-invasive Detection in OAB Patients with Bladder NIRS
6. Mini State of the Art: An Anatomic Approach to Vulvar and Periclitral Cyst Management

#### **General Session 5: Innovations in Surgery**

1. A Longitudinal Comparison of Mesh Versus Fascia Lata for Robotic Sacral Colpopexy
2. Mesh vs Suture for Sacrospinous Repair- intraoperative Outcomes of a RCT
3. Mesh Exposure and Sexual Function by Hysterectomy Type in Sacrocolpopexy
4. Assessing Safety of Combined Midurethral Sling and Botox® for Mixed Incontinence
5. Prevalence and Incidence Rate of Uterine Cancer After Supracervical Hysterectomy
6. Mini State of the Art: All Aboard: Navigating Changes in Urogynecology Fellowship Applications
7. VIDEO: Hamstring: A Minimally Invasive Hamstring-based Autologous Midurethral Sling

### **CONCURRENT SESSIONS**

#### **Concurrent Session 1: Infections & Incontinence: Insights & Innovations**

1. Mini State of the Art: Coding and Reimbursement
2. Unique Gut and Bladder Microbiomes in Postmenopausal Women with Recurrent Utis
3. Treatment of Urinary Tract Infection Symptoms in Older Women: A Randomized Trial
4. Intra-operative Measures to Reduce Post-operative Utis in Urogynecology, Phase 2
5. Perioperative Antibiotic Choice and Utis After Pelvic Organ Prolapse Surgery
6. Best Basic Science Paper: Sex Hormone Binding Globulin in Postmenopausal Women with Urinary Incontinence
7. The Relationship of Plasma Metabolites and Incidence of Urgency Incontinence

8. Outcomes of Combined Urogynecology and Gynecologic Oncology Surgery
9. Incidence of Overactive Bladder in Women with Gynecologic Cancer
10. Factors Influencing Urogynecologic Surgery at Time of Endometrial Cancer Surgery
11. VIDEO: Robotic Assisted Repair of a Delayed Vesicovaginal Fistula with Omental J Flap

### **Concurrent Session 2: Impact of Age**

1. Pelvic Floor Physiotherapy for Incontinence in Women 60+ : 8-year Follow-up
2. Older Age Is Associated with Persistent Urgency Urinary Incontinence After Sling
3. Perioperative Neurocognitive Disorders in Older Women After Prolapse Surgery
4. Enhancing the Surgical Care for Older Women Through Age-friendly Health
5. Delirium After Prolapse Surgery Increases Complications: A National Cohort Study
6. Peripheral Inflammation and Postoperative Delirium in Older Surgery Patients
7. Changing Minimally Invasive Overactive Bladder Therapy Patterns in Older Adults
8. The Association Between Overactive Bladder and Cognitive Function in Women
9. Age and Perioperative Outcomes Following Minimally Invasive Sacrocolpopexy
10. Changing Patterns in Apical Prolapse Surgery for Octogenarians: 2015-2024
11. VIDEO: Vaginal Lengthening Procedures for Non-congenital Indications
12. Consensus Guidelines for Pelvic Floor Botulinum Toxin: A Modified Delphi Study

### **Concurrent Session 3: Postpartum & Beyond**

1. Mini State of the Art: Pelvic Pain
2. Abnormal Exam Measures 6 Months Postpartum May Help Predict Prolapse Development
3. Maternal Age at Childbirth and Urinary Incontinence 12-14 Years After Delivery
4. Sexual Distress During the First Year After Obstetric Anal Sphincter Injury
5. Obstetric Anal Sphincter Injuries: A Postpartum Quality Improvement Initiative
6. Perineal Birth Injury Prevention: A Qualitative Study of Patients and Providers
7. Postpartum Urogynecologic Care: Do Sociodemographic Factors Impact Attendance?
8. Postpartum Hypergranulation Tissue: Incidence, Risk Factors and Management
9. Characteristics Influencing Postpartum Pelvic Floor Physical Therapy Success
10. VIDEO: Return of the Manchester Procedure: Tips & Tricks to a Modernized Approach

### **Concurrent Session 4: Slings & Bulking**

1. Impact of Urethral Bulking Agent (Bulkamid®) on Urethral Morphology and Shape
2. Assessing Safety of Concomitant Administration of Urethral Bulking and Botox®
3. Mini State of the Art: Urethral Reconstruction for Urethral Stricture Disease
4. Effect of Obesity on Polyacrylamide Hydrogel Urethral Bulking Failure
5. Impact of Procedure Setting on Urinary Retention After Bulkamid Injection

6. Utility of Preoperative Laboratory Testing Prior to Mid-urethral Sling Surgery
7. Sling Release After Robotic Sacrocolpopexy with Concomitant Sling: Risk Factors

### **Concurrent Session 5: From Data to Desire - Affirming Outcomes**

2. Mini State of the Art: Practicing in US vs. Canada
3. Cost and QALY Impact on Three AUA Microscopic Hematuria Guidelines in Women
4. Environmental Impact Analysis of Alcohol-based and Water-based Surgical Scrub
5. Validating the Transmasculine and Gender Nonconforming Pelvic Health Inventory
6. Satisfication Survey: Sexual Satisfaction and Function After Trans Vaginoplasty
7. Development and Evaluation of an Augmented AI Model for Urogynecology Queries
8. Evaluation of AI Generated Surgical Decision Aid Tools in Urogynecology

### **Concurrent Session 6: Unheard Stories, Unmet Needs**

1. The Impact of Incontinence on Quality of Life in the Black Women's Health Study
2. Physician Time Impact on Decision-making in Limited English Proficient Patients
3. Association of Uterine Fibroid Size and Location with Urinary Symptoms
4. Impact of Fibroids on Uterosacral Ligaments in Women with Pelvic Organ Prolapse
5. Prevalence and Temporal Trends of Female Genital Cutting in Sierra Leone
6. Media, Technology Exposure, and Views on Female Genital Cutting in Sierra Leone
7. Mini State of Art: Game Changer: Centering Pelvic Health Within Female Athletics - Update from the FIFA Female Football Project

### **Concurrent Session 7: The LUTS Landscape: Risk, Recovery, and Rehabilitation**

1. Mini State of the Art: Quick Fixes for Urinary Incontinence: Myth or Miracle
2. RCT of Retropubic Lidocaine vs Saline on Postop Urinary Retention After MUS
3. Predictive Value of Pre-op Urodynamics in Prolapse Repair with Sling
4. Lower Urinary Tract Symptoms Impact on Physical Function in Care-seeking Women
5. Care of Lower Urinary Tract Symptoms After Radiation for Gynecologic Cancer
6. Pubovisceral Muscle Enthesis: A Histologic & Single Cell Transcriptomics Study

### **Concurrent Session 8: Complex Cases, Evolving Techniques**

1. VIDEO: Robotic-assisted Repair of a Complex Vesico-cervical Fistula
2. VIDEO: Adjustable Autologous Pubovaginal Sling for Complex Stress Urinary Incontinence
3. Mini State of the Art: Surgical Competence Assessment: Evidence to Implementation
4. (Late-Breaking) Vibrational Intervention for Better Empowerment in Sexual and Pelvic Health- RCT
5. Colpocleieasy: A Simulation Model Validation Study

6. Complications Associated with Hysterectomy at the Time of Obliterative Surgery
7. Questionnaire Validity and Hypercontracted Pelvic Floor: A Case-control Study

### **Concurrent Session 9: Urobiome**

1. Urinary Tract Infections in Postmenopausal Hormone Positive Breast Cancer
2. Estradiol Regulation of Uropathogenic Escherichia Coli in Urothelial Cells
3. Bladder Health and the Urogenital Microbiome
4. Mini State of the Art: Updates in Ruti Treatment and Prevention
5. Comparing Microorganism Networks Between Women with and Without UTI Symptoms
6. Antimicrobial Resistance Rates: Role of UTI Management Guidelines
7. Urinary Tract Infection Following Hysterectomy Based on Antibiotic Choice

### **Concurrent Session 10: Weighing the Risks of Surgery**

1. The Surgical Challenge of the Repeat Sacrocolpopexy
2. VIDEO: Laparoscopic Rescue Cerclage Sacrohysteropexy After Failed Mesh Hysteropexy
3. Quality of Life After Sacrocolpopexy vs Native Tissue Repair: Systematic Review
4. Cosmesis and Body Image After Robotic Sacrocolpopexy
5. Does Body Mass Index Impact Complications of Minimally Invasive Sacrocolpopexy?
6. Modified BMI: A Novel Nutritional Marker Linked to Postoperative Complications
7. Body Mass Index and Long-term Surgical Outcomes in Native Tissue Prolapse Repair
8. Preoperative Vaginal Preparation and Infection After Gynecologic Surgery

### **Concurrent Session 11: Invisible Burdens**

1. Mini State of Art: Genitourinary Syndrome of Menopause: AUA/SUFU/AUGS 2025 Guideline - Review of the Evidence and Path to Patient Satisfaction
2. Prevalence and Trends of Urinary Incontinence Among U.S. Reproductive-age Women
3. Best Paper by Student/resident: Effect of Interpregnancy Interval on the Development of Pelvic Floor Disorders
4. VIDEO: Transvaginal Urethrolisis with Martius Flap for Recurrent Urethral Obstruction
5. What's Nocturia Got to Do with Sleep?: A Prospective Sleep Level Analysis in OAB
6. Exploring Nocturia and Major Adverse Cardiovascular Events: A Bayesian Analysis
7. Chinese American Women's Overactive Bladder Care Experience: A Qualitative Study

### **Concurrent Session 12: Function & Fiscal Impact**

1. Autonomic and Somatic Nerve Density of Anal Sphincter Complex and Perineal Body
2. VIDEO: Fascia Lata Harvest and Laparoscopic Autologous Fascial Sacrocolpopexy
3. Mini State of Art: Surgical Neuroanatomy for the Urogynecologist

4. Cost Analysis of Supracervical versus Total Hysterectomy During Sacrocolpopexy
5. Cost-effectiveness of Total vs. Supracervical Hysterectomy with Sacrocolpopexy
6. Long-term Risk of Prolapse Retreatment After Hysterectomy for Prolapse
7. Fibroblast Mechanobiology in Pelvic Organ Prolapse

### **Concurrent Session 13: Emerging Technologies**

1. Analysis of Novel Inflammatory Markers in Implanted Stem Cell Coated Mesh
2. VIDEO: Transvaginal Sacrospinous Ligament Rectopexy
3. Mini State of Art: The Right Way to Teach Lefties in the Urogynecology OR
4. A Cognitive Task Analysis on Teaching Retropubic Midurethral Sling Surgery
5. Impact of Itnm: Revi System in Women with Urgency Predominant Mixed Incontinence
6. Implantable Tibial Neuromodulation for Overactive Bladder: 12-month TITAN 2 Data
7. Treatment Settings for Implantable Tibial Neuromodulation: First-year Experience
8. Smartwand: Validating a Novel Device for Remote Pelvic Floor Physical Therapy
9. App-based Interventions for Fecal Incontinence: Usability and Improvement
10. Does Transvaginal Urethral Stimulation Increase Ovine Urethral Closure Pressure?
11. Timing Regenerative Therapeutics: ECM Remodeling by Stage of Prolapse
12. Age-dependent Changes in Murine Cellular Senescence Profile with Cgas Inhibitor
13. Artificial Intelligence to Assess Dynamic Posterior Compartment Ultrasound

### **Concurrent Session 14: Equity, Engagement, & Emerging Tools**

1. Mini State of Art: Click Less, Care More: Using AI to Reclaim Time and Improve Outcomes in Urogynecology
2. A Qualitative Study on Social Factors Influencing Prolapse Management
3. VIDEO: Robotic-assisted Transvesical Excision of Eroded Transvaginal Mesh
4. Geospatial Disparities in Pelvic Floor Physical Therapy Across US Urban Centers
5. Physician Awareness of LEP Patients' Preferred Decision-making in Urogynecology
6. Community Outreach in Assessment of Health Seeking Behaviors in Urogynecology
7. SNAK: Using Social Media Navigation Aid Kits for Urinary Incontinence
8. Research Experiences or Lack Thereof of Non-white Postpartum Women
9. Community Engaged Recruitment in a Urinary Incontinence Clinical Trial
10. Patient Perceptions of Shared Decision Making for Incontinence in Primary Care
11. Semi-automated Motion Tracking of Vaginal Pessaries on Dynamic MRI
12. Assessing Hiatal Morphology with and Without Ring Pessary Use on Dynamic MRI
13. Effect of Presurgical Glucose Control on Inflammation Related to Vaginal Meshes

### **Concurrent Session 15: Neural Pathways & Immune Plays**

1. Relaxing Environment Lowers Anxiety During Chemodenervation, a Randomized Trial

2. VIDEO: Vaginal Reconstruction with Pudendal Perforator Flap for Recurrent Prolapse
3. Infection Prevention in Sacral Neuromodulation: A Propensity Score Analysis
4. Cost-effectiveness of Antibiotic Envelope for Sacral Neuromodulation
5. Variation in Cadaveric Sacral and Coccyx Measurements for Sacral Neuromodulation
6. (Late-Breaking) Supracervical Hysterectomy Preserves Vaginal Contractility in a Primate Model
7. Diaphragmatic Interventions for Voiding Abnormalities (DIVA): A Bayesian Trial
8. Best Paper by PhD/postdoc: Macrophage Polarization: Impact on Matrix Remodeling and Downstream Outcomes
9. Best Overall Paper: Immune Cell Dynamics in Macrophage/monocyte Therapy Under Diabetic Conditions
10. (Late-Breaking) a Randomized Trial of Vaginal Estrogen Application Techniques for UTI Prevention
11. (Late-Breaking) RCT of Vaginal Mesh Hysteropexy vs Vaginal hysterectomy:10 Year Follow-up
