

CardioHub is dedicated to enhancing the knowledge and expertise of HFSA members by providing a diverse array of educational products. Our offerings are designed to engage the entire heart failure team, deepen their understanding of heart failure, and provide valuable learning opportunities throughout the year.

The industry supported opportunities within CardioHub are:

CardioBites

A series of microlearning videos focused on a key topic in heart failure treatment and care

CardioBites+ **NEW!**

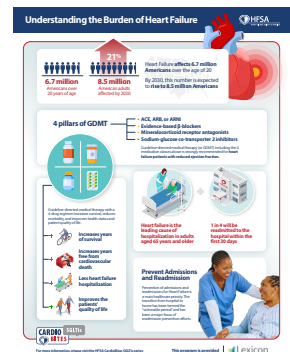

A longer version of CardioBites, with microlearning videos (10 minutes or less in length) with in-depth information on a key topic in heart failure

Cardio Town Hall **NEW!**

A 30-minute live seminar with 2-3 speakers and includes an opportunity for the audience to pose questions to the speakers. The seminar would be recorded included in the HFSA Learning Center. The program would include a downloadable list of questions/answers

CardioGraphic

A one-page infographic based on the content of CardioBites and CardioBites+ programs

Cardio Test Your Knowledge **NEW!**

A slide-based video program. Each slide will include a question, potential answers, graphics, and commentary on the correct answer. Additional resources based on the question will also be provided

Cardio Clinical Challenge **NEW!**

A case-based program. The video module would include the case, questions, answers, and discussion. Each CCC would include three cases and would run for 15 minutes

CardioPerspectives **NEW!**

A video commentary on guidelines and/or scientific statements. This could be done for HFSA-created and/or endorsed guidelines, scientific statements, or significant publications (Like HF Stats). The goal of these programs is to increase awareness of newly published/available practice-changing information. Could be one topic expert or a panel discussion as appropriate to the topic

CardioMinute **NEW!**

A monthly one-minute update on news items from the HFSA News Weekly from the previous month

CardioDebates **NEW!**

A 30-minute live webinar with two speakers debating a topic, a rebuttal and time for questions and answers

CardioAbstracts **NEW!**

A slide-based program where abstracts presented at ASM are presented in one slide with key take aways and the author summarizing the abstract in 60-seconds. Includes a downloadable pdf.
